

ATMOsphere Conference - North America

**Phase-Out F-Gases in
Commercial Refrigeration**

Washington DC, 19 June 2013

Antoine Azar

Clever Cooling vs. Global Warming

A global initiative of companies taking action to combat climate change by replacing fluorinated gases in refrigeration equipment with climate-friendly natural refrigerants

Recognized as a “**Partnership for Sustainable Development**” by the UN Commission on Sustainable Development

MEMBERS

PEPSICO

SUPPORTERS

Supported by UNEP and **GREENPEACE**

Member companies have collectively:

- Placed **2.5 MM plus HFC-free** refrigeration units in major countries around the world
- Avoided more than **1 MM tons of CO₂** equivalent emissions

Place holder for the 2min eKO video

Our Goal

Phase-out HFCs

How?

Adoption of
CO₂ technology

Progress

862,000
HFC-free units

Perception Versus Reality on Key Parameters

Action Towards Our 2015 Goal

- CO₂ compressor supply agreement
- Supply chain development
- Leading the way with Refrigerants Naturally!
and the Consumer Goods Forum

The text "Thank You!" is written in a large, bold, blue-outlined font. It is centered within a light blue, horizontally-oriented oval. The oval is decorated with several light blue snowflake graphics of varying sizes scattered around the text.

Thank You!
