#### "A NEW COMER WITH A NEW APPROACH TO TECHNOLOGY"

SANDEN wants to drive market change by generating customers' value based on unique CO<sub>2</sub> technologies

SANDEN

## **SANDEN Environmental Solutions**

## **New entity of the SANDEN Corporation**

- New branch of SANDEN International Europe Ltd
- 2 main functions:Sales & MarketingAdv. Products Management
- 9 employees today,18 forecasted in 2016
- ☐ Territories: Europe, Middle-East and Africa
- On duty since July, 15<sup>th</sup> 2014
- Located in Rennes (France) in a Positive Energy building

## The CO<sub>2</sub> technology as our main mission

Boosting sales of our current heat pump products range for household and small commercial usage

Selling CO<sub>2</sub> heat pump modules

Living & **Environment Systems** 

SANDEN

Commercial refrigeration

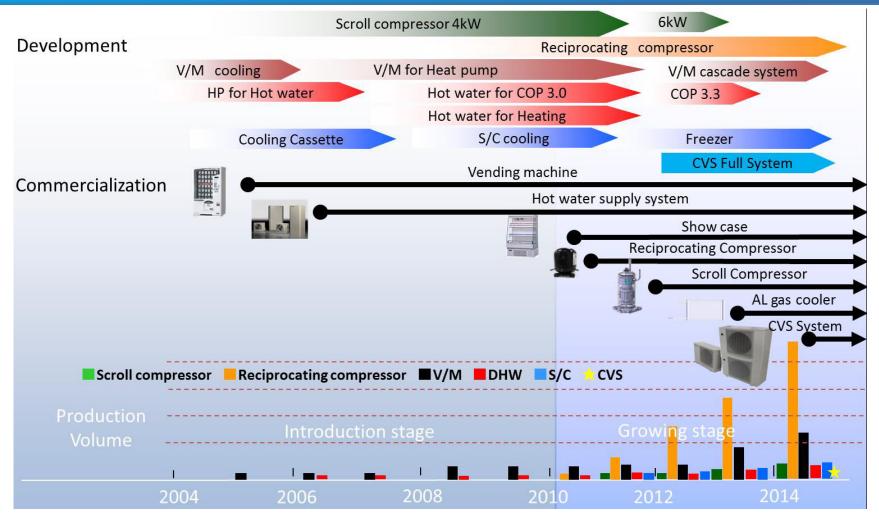

Technology Other heating & cooling applications

- Entering in the retail systems business, with a 100% CO<sub>2</sub> offer for both cooling and freezing
- Target: stores up to 1000m<sup>2</sup> (convenient stores and city markets)

**Distribute widely** our CO<sub>2</sub> **Technology** 

- Development of efficient CO<sub>2</sub> systems, adapted to various types of applications (low to medium capacities, up to 25 kW)
- Some examples: small cooling units for industrial usage, cold food chain or medical equipments, home appliances...

KEY SELLING POINTS: QUALITY / PERFORMANCES / COST CO<sub>2</sub> REFRIGERANT IS JUST A BONUS...as of today

**Delivering Excellence** 

## SANDEN CO<sub>2</sub> SOLUTIONS

the best combination of service, quality and ecology

**SPACE HEATING and DHW HEAT PUMPS** 

**VENDING MACHINES** 

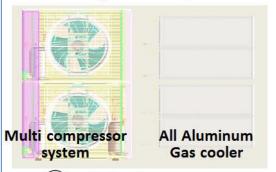

**CO, TECHNOLOGY COMPONENTS** 

Various applications of CO<sub>2</sub> Exchangers, compressors...

## **FOCUS ON RETAIL**

 $\bigcirc$  CO<sub>2</sub> Compressors

- High efficiency
- •Lowe noise & vibration
- High reliability

3 Multi control system

#### Modules

3kW

4.5kW

9kW

. 1<sup>st</sup> phase of 70+ convenience style stores, launching drastic expansion!
. 100% SANDEN CO<sub>2</sub> equipment
. Average real life energy savings of 23%

(vs up-to-date R404a systems)

2015 Target

→ Expand globally

# We are responsible for bringing top quality/performance/cost products to the market...

...but we may use some help!

- Eco-design Directive:
- indication about "natural refrigerant" on energy label?
- bonus for natural refrigerant?
- ■F-Gas Regulation >> how to cover full market scope?

  lots of "holes" identified (heat pumps for tumble driers / coolers for cabinet, server, ... / ...)

Our observation / question:

AS AN EXPERT COMPANY, WE PROVIDE THE EXPECTED SOLUTIONS. WE EXPECT TO GET MORE SUPPORTIVE AND CONSISTENT POLICIES!

solutions for europe

natural refrigerants

16-17 March 2015 in Brussels

Thank you very much!
