

THE CONSUMER GOODS FORUM

Sustainability Pillar

The Global Network Serving Shopper & Consumer Needs

The CGF's work on Sustainable Refrigeration

19 & 20 April, 2016 - Barcelona

400 members
across **70** countries
retailers, manufacturers, service providers
of the consumer goods industry

35 projects
& working groups
with **1500** experts

CGF member companies
directly employ nearly
10 million people,
with a further
90 million related jobs

CGF member companies
combined sales of
€2,5 trillion

WORKING TOGETHER EFFICIENTLY FOR POSITIVE CHANGE

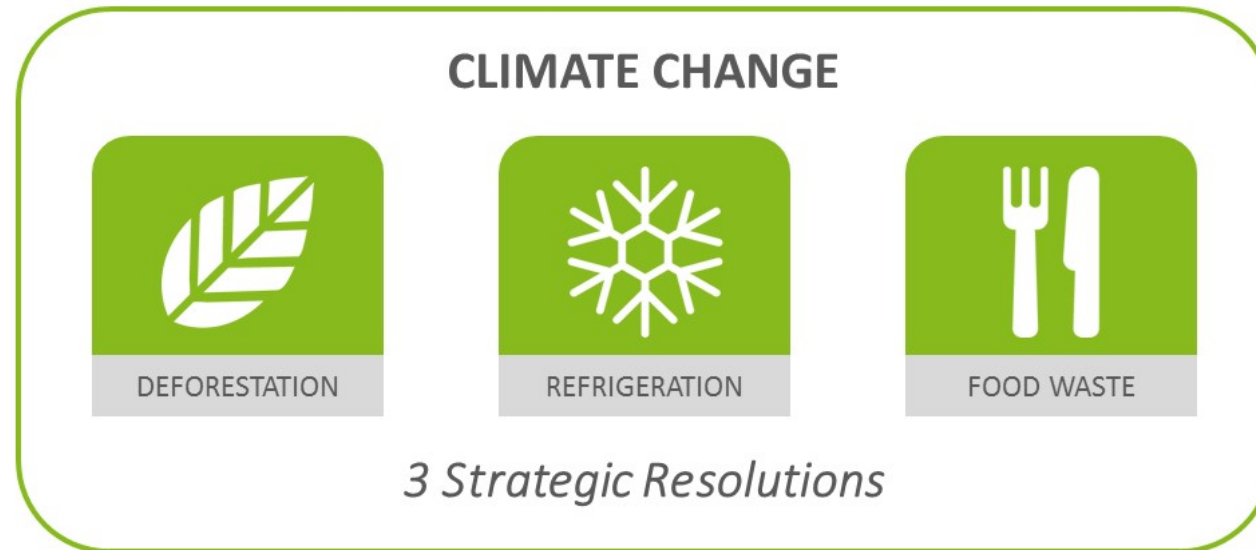

A THRIVING GLOBAL MEMBERSHIP

Our Objective

“To provide leadership in creating a sustainable consumer goods industry, serving the needs of all, now and in the future”

ENVIRONMENTAL SUSTAINABILITY AT THE CGF

Goal:

To begin phasing-out HFC refrigerants in new installations as of 2015 and replace them with non-HFC refrigerants (natural refrigerant alternatives)

Approach:

- To encourage the development of *scale* in the industry, *collaborate with first movers*
- To actively shape public policy and the regulatory environment, *fundamental issues like standards and education / skilled trade and safety*
- To collect best practices from which we can all learn – e.g.: Refrigeration Booklet 2016

Progress:

Low carbon refrigeration systems (mostly natural) installed:

- 4,000+ supermarkets
- 4 million+ ice cream and drinks chiller units worldwide and industrial plants

Thank you
